### Latin American Media Properties: Project Manager / UX Designer

**2008 - 2010**

- Developed a Competitive Landscape of the youth football / soccer market in the United States as well as the web presence of professional football / soccer – FootSchool TV
- Recruited, hired, and managed a team of developers in Berlin and India to produce a soccer web portal: LAMP, Drupal CMS, Video repository, Google Analytics, PHP Motion, HTML, CSS, Flash, XML Data Pipeline
- Personal deliverables included wireframes, site maps, task flow diagrams, CSS files & information architecture artifacts
- Negotiated Content Contract with STATS, AP, and News Corp for Professional Soccer Team Statistics, Standings, New Articles, Photo Libraries and more
- Developed a Strategic, Grass Roots Marketing Strategy that involves a field team filming on location while registering users for accounts on the website
- Social marketing & content management: Facebook (10,000+ fans), Twitter, Youtube
- Negotiated Content Contract with Universal Music Latin American Group: Live Audio and Video Footage, Lyrics Libraries, Concert Playlists and Schedules, MIDI data, album art, ect...
- Developed Market Analysis of the online Musica Regional Mexicana genre in the United States as well as the web presence of Latin American Music – A Toda Musica
- Built a Filemaker 11 system that assembles a daily playlist from various digital assets and scheduled advertisements

### Environmental Coalition of Miami Beach: Executive of Brand Development

**2007 - 2010**

- [www.ecoartgallery.org](http://www.ecoartgallery.org)
- Created the Eco Art Gallery by the Sea: A fund-raising campaign to clean the beach, hire after school workers, decorate the beach front litter bins with design from local artists, and raise money from local and corporate sponsors
- Produced statement of work, project budget, negotiated price/time frames with printer & litter bin manufacturer
- Successfully lobbied community for permission to use beach front litter bins: City & County Mayors, Commissioners, Green Committee, Green Building Council, & the Miami Beach Chamber of Commerce
- Produced and syndicated all marketing materials as related to the project: Press releases, Call to artists, Website where artist submitted their entries, ad creation/placement in the Sun Post & Miami Herald
- Partnership with [Shake-a-Leg Miami](#) to raise \$10,000 in computer equipment from Best Buy
- Total Non-Profit Fund-raising: \$82,000 to date

## Teachade

[www.teachade.com](http://www.teachade.com)

Miami, FL - Cambridge, MA

K-12 Education Portal

### UX Designer, Project Manager, Content Manager, Community Manager

2004 - 2007

- Performed thorough research of the competitive landscape and all existing functionality/experiences
- Identified and documented project requirements from user data, industry research, web investigation, school purchasing, interviews and surveys gathered at over 20 education technology trade shows, and parent/teacher/student interviews at our test school located on Fisher Island
- Developed the site's structure and articulated how these variables were bridged together:
  - a) Different types of teachers (subjects/grades interests) and their longtail
  - b) Different types of resources (learning resources, assessments, ect) and their priorities
  - c) Different stakeholders (teachers, parents, students, administrators, vendors, etc..) & their values
- Developed the scope of the site with regard to functional specifications and content requirements
  - a) Wire-framed the site's skeleton and produced interface design, navigation design & information design
  - b) Translated user feedback into page mockups, component listings, site maps, statements of work, and version specs for each iteration of the website's surface
- Managed web contractors located in Miami, Sacramento, Cambridge, & India through alpha and beta development phases of an educator web portal where teachers share resources
- Negotiated pricing structure, hourly rate, and time lines for each version/iteration with web contractors
- Quality managed production throughout the entire development phase of each version based on initial statement of work
- Identified bugs during pre-release of each version and logged them into Bugzilla for the developers to fix
- Met spec requirements within listed time frames
- Managed Content Procurement & Production of over 200,000 web-based teacher resources
- Managed 30 paid teachers responsible for resource collection and tagging by subject, grade, and topic
- Managed 10 teachers on a project to produce over 500 flash-based learning games
  - a) Gathered vision and story boards from participating teachers
  - b) Translated teacher direction into a statement of work, complete with game mapping & user-interface navigation
  - c) Revised scripts of flash-based learning resources
  - d) Selected voice-over talent
  - e) Quality managed production throughout the entire development phase based on initial statement of work

## Clinton Presidential Center

[www.clintonpresidentialcenter.org](http://www.clintonpresidentialcenter.org)

Atlanta, GA

Presidential Library

### Project Coordinator

2004

- Supported creation of the Presidential website to coincide with the unveiling of the William J. Clinton Center in Arkansas
- Managed writers, graphic designers, & editors in order to publish numerous web-based articles documenting President Clinton's achievements and on-going initiatives with the Clinton Foundation
- Organized thousands of photos and video highlights of President Clinton's years in office as well as the construction of the Clinton Presidential Center
- Indexed 25,000 presidential documents into a searchable/browse-able database, all hotlinked to articles, book excerpts, pictures & other multimedia (Video & Flash-based widgets). Managed web programmers to upload all content

## Intern Experience
